

MEASURE WORKSHEET

Ceiling Height:		Door Height:	
Window(s) Height:			

How to use this worksheet:

- Draw the shape of the room to scale as much as possible
- Mark all openings in the space (doorways, windows, wall openings, etc.)
- Measure the full length of each wall
- Measure the walls by section
- Mark all fixtures (gas lines, plumbing, electrical outlets, heat registers, etc.)
- Measure the height of the ceiling, doors, and windows
- Make note of any unusual features that could affect the design

*** All measurements will be verified by the designer prior to fabrication ***
